50 titles in ABI/INFORM (35 with ongoing full text) provide specific coverage of the hospitality and tourism industries. Content includes essential trade publications including Caterer & Hotelkeeper, Hotels and Restaurant Hospitality, scholarly titles such as Emerald’s International Journal of Contemporary Hospitality Management and Macmillan’s Tourism and Hospitality Research, and reports on the tourism industry around the world from Business Monitor International.

Additional content is available through ProQuest Central, which offers 90 titles on hospitality and tourism, while subscribers to ProQuest Historical Annual Reports can find annual reports, dating back through the 1990s and in some cases much earlier, for many companies in the hospitality industry such as Marriott and MGM Mirage.

Using the Thesaurus from the Advanced Search page on the new ProQuest platform, researchers can select from subjects including ‘Hospitality Industry’ and find all relevant content from within their subscribed databases. This can be very useful in locating relevant content from business newspapers, newswires, and other periodicals that are not directly focused on the hospitality industry. Other fields such as Location can be used to refine or filter searches. Users can also set up an email alert to deliver new documents matching their search as they become available in ProQuest.
