Supply chain management is a broad field where a range of titles available through ABI/INFORM are relevant, from journals such as *Journal of Supply Chain Management* directly focused on logistics or operations management, to more general management and business titles such as *MIT Sloan Management Review* that publish important articles on supply chain topics.

ABI/INFORM offers over 130 titles relevant to supply chain management, over half of which have ongoing full text. Together, these titles cover all aspects of the supply chain, including management, production and transportation. As well as over 75 scholarly journals, including ongoing full text titles from top tier publishers such as Emerald, Palgrave Macmillan and Springer, ABI/INFORM users will find around 50 trade journals and magazines such as *Logistics Management* and *Supply Chain Management Review*.

ABI/INFORM users can benefit from searching these titles together with key business newspapers and newswires, plus titles aimed at specific industries, that will often contain further useful content. Using subject searching and filtering it is easy to locate relevant material; for example, a subject search on “Supply chain management” will return almost 8,000 results from a huge range of titles. Filtering options such as Company/Organization or Location enable users to further refine their results.
